and
Plan Your Future
With RUReady.ND.gov**

How can I find out which careers might match my interests?

- You can start by going to RUReady.ND.gov and taking the **Career Cluster Survey!**

What is RUReady.ND.gov?

- RUReady.ND.gov is an education and career planning program available to everyone in North Dakota – from pre-K to adult!

What are Career Clusters?

- Career Clusters are broad groups of occupations and industries that share common features.
- If you like one job in a cluster, you will probably find other jobs in that cluster that you will like as well.

- Each cluster may include hundreds of different careers.

There are 16 Career Clusters

- Agriculture, Food & Natural Resources
- Architecture & Construction
- Arts, Audio/Video Technology & Communications
- Business, Management & Administration
- Education & Training
- Finance
- Government & Public Administration
- Health Science

Benefits of Career Clusters

Why use career clusters to explore careers and plan your future?

Thinking ahead and preparing for careers is helpful if you are headed to the workplace or college. Some careers that are common today may not be needed tomorrow. And all careers require flexibility, knowledge, and skills.

- **Think big.** Career clusters help you take a broad look at your options through six career fields and the options within each field.
- **Get excited.** Choices seem endless but remember you're in control. Exploring clusters can get you excited about your options as you discover what's best for you.
- **Save time.** Exploring groups of similar occupations helps you select and eliminate choices more quickly than researching many individual occupations.
- **Spend wisely.** Make wise decisions about what you're going to study. Don't declare a major quickly and then realize halfway through the program that a different career interests you more.
- **Take control.** Base your career choice on your own dreams and interests. Career clusters help you learn about all the types of careers available, so you don't leave the decision to chance.
- **Stand out.** Grab employers' attention by knowing the skill requirements and knowledge for specific fields and jobs.
